

# DARK SIDE HYPNOSIS

This is The Worlds End pattern.

NEVER USE THIS.

It is a world destroyer, you elicit the feeling of no trust in a person and then future pace that situation to make it real for them.

Have you ever had that feeling that people are talking about you behind your back?

(Wait for their response)

I mean I'm not saying that people talk bad things about you behind your back or anything, but just be careful what you say around some people. You never know who is out to get you.

What I mean is you never know just what people are saying about you, and what they think of you... I bet you get that feeling though sometimes like people don't like you.

But maybe not, maybe everyone likes you and no one is planning to do something to you.

(Negation, meant to confuse)

But then again, you can TRUST NO ONE...

Because when you think about it, I'm not saying they will, but most likely THEY WILL BETRAY YOU.

You never know when it will happen, but probably sometime in the future, say a few weeks from now... SOMETHING WILL HAPPEN and YOU WILL NEVER TRUST ANYONE AGAIN, and you'll look back on this moment right now, with me and you'll think YOU SHOULD NEVER TRUST ANYONE...
